University of California, Irvine — Master of Computer Science — GPA: 4.0 [Irvine, CA, USA] Sept 2023 - Dec 2024
Vellore Institute of Technology — B.Tech Computer Science and Engineering [Vellore, India] July 2016 - June 2020

SKILLS

Languages/Scripts	Python, C#, PowerShell, Bash, SQL, Java, JavaScript
Security & DevSecOps	CSPM, CWPP, CIEM, SIEM, Zero Trust, IAM/RBAC, Conditional Access, Vulnerability Management, Defender for Cloud, Sentinel, Purview, CIS, NIST, MCSB
Tools/IaC	Terraform, Bicep, Docker, Kubernetes (AKS), Azure DevOps, Jenkins, GitHub Actions, GHAS
Cloud Stack	Azure (PaaS/IaaS: full stack), AWS (S3, Lambda), Multi-Cloud Security Architecture

EXPERIENCE

Deloitte — Engineering Manager — [Cloud Infra and Security Team](#) — [Seattle, WA](#) Jan 2025 - Present

- Architected and deployed **fully automated IaC solutions** using **Terraform and Bicep** across **Azure PaaS and IaaS environments**, enforcing **enterprise-wide cloud platform standards** for security, cost, and compliance across **5+ business units and 150K+ users**
- Built and maintained **CI/CD pipelines** using **GitHub Actions and Azure DevOps**, integrating **GitHub Advanced Security (GHAS)** and **automated IaC compliance scanning** to enforce standardized security tooling across all deployment workflows
- Onboarded **2,000+ enterprise applications and 120K+ identities** into **cloud IaC environments**, providing **technical support at design and operational phases** and resolving cloud configuration, networking, and identity issues within defined SLAs
- Implemented **cloud monitoring and observability** using **Azure Monitor, Log Analytics, and Power BI dashboards**, producing **periodic reports on resource usage, cost trends, and platform performance** to guide strategic architecture decisions
- Contributed to **continuous CSPM** using **Terraform IaC scanning, misconfiguration detection, and automated remediation** – identified gaps through code review and threat modeling, shipped fixes, and maintained **100% policy compliance** across multi-cloud production environments
- Led **cross-functional working groups** across delivery and platform teams, driving **cloud cost optimization initiatives** and establishing **secure-by-default IaC guardrails and cloud platform standards**

ZS Associates — Associate Consultant Intern — [Cloud and Big Data Team](#) — [Philadelphia, PA](#) Jun 2024 - Aug 2024

- Overhauled **ETL workflows** by converting **3,000 Parquet tables to Delta tables** using **Apache Spark and Databricks**, leveraging **Azure Data Factory pipelines** to enhance scalability and cloud platform efficiency
- Designed and published a **hardened custom Docker image** for Databricks clusters via **Artifactory**, reducing cluster runtime by **14%** by eliminating runtime package installations
- Implemented **Unity Catalog** in Databricks for **unified data governance**, using **Azure Key Vault and ADLS fine-grained access controls** to enforce compliance; produced **Grafana dashboards** tracking data pipeline health

University of California, Irvine — Data & Tech Fellow — [Prof. Tom Andriola](#) — [Irvine, CA](#) Jan 2024 - Dec 2024

- Engineered **hybrid cloud infrastructure** using **Terraform IaC**, deploying **Application Proxy, Entra ID Connect, F5 load balancing, firewall, and DNS routing** – troubleshooting cloud networking, configuration, and authentication issues
- Built an **Apple Vision OS remote development platform** (SwiftUI, SSH, VS Code Server) running on **Azure-hosted infrastructure**, collaborating with application and platform teams to maintain **stable cloud environments**
- Produced **technical documentation and architecture presentations** for stakeholders at all organizational levels, communicating cloud platform design decisions and infrastructure standards

Deloitte — Cloud Infrastructure Solution Advisor — [Cloud Infrastructure Team](#) — [Gurugram, IN](#) Aug 2020 - Sep 2023

- Designed and deployed **fully automated cloud solutions** on Azure (**VMSS, AKS, App Service, Cosmos DB, Redis Cache, Event Hubs**) using **Terraform IaC and Azure DevOps pipelines**, supporting enterprise workloads across **IaaS, PaaS, and SaaS**
- Developed an **Azure DevOps extension** to **pre-scan Terraform IaC templates** for misconfigurations and policy violations before deployment, integrating findings into **Power BI dashboards** for resource trend reporting
- Analyzed **cloud usage patterns and cost trends** across multi-cloud environments, producing **periodic reports and Grafana/Power BI dashboards** to guide **strategic architecture decisions**
- Onboarded enterprise value streams into **cloud IaC environments**, providing **technical support at design and operational phases**, troubleshooting **cloud service, networking, and configuration issues**
- Built **ETL workflows** with **Azure Synapse, Azure SQL, and Azure Data Factory**, collaborating cross-functionally with application, infrastructure, and security teams

CERTIFICATIONS
